

Shamrock Nook

Cow Herd *Dispersal*

Saturday, August 30, 2008

At the Farm • 2 p.m.
Albany, Wis.

Dear Friends and Cattlemen,

I would first like to take this opportunity to welcome you to Shamrock Nook. I would also like to thank you for your consideration of the program that we put together over the past 20 years. We have met so many great people over that span of time that I'm proud to call many of you lifetime friends.

Building a Red Angus herd has been an important part of our lives over that time. We have traveled countless of miles, and viewed many of the breeds' finest herds. With one criteria in mind, we searched to find great cows from the best cow families. So we looked at those cow lines to lead the way. Eleanor, Tidy Bee, Copperqueen, Bloxy, Hi Dee, Mimi, Advance, and on, and on. These girls are our pride and joy. They are so much more than cows to us, they are our family. Many of these sale matrons' best accomplishments are yet to be written. I really hope that they go out into the industry and carry on the Shamrock Nook name much like what we have seen from Bootjack or Leachman cattle.

As the cattle industry moves into the future, one of the main restrictions has to be feed cost. Moderate Angus cattle have to lead the way. Whether it is in the commercial environment or not, we as purebred breeders will have to take notice.

Once again, thanks for coming to Shamrock Nook. If we can help you in anyway please feel free to call.

Sincerely,
Joe and Jim Dunphy

Watch and Bid Online...

We are pleased to offer the sale broadcast "live" over the Internet through DV Auction Services. You will need high speed Internet access (DSL, T-1, or broadband) to bid online. If you are a first time user, a day or more before the sale, you will need to register with DV Auction by visiting www.dvauction.com and clicking on the Register Tab. Complete the registration and select online bidding/buying. Your bank will be contacted to verify information. DV Auction will contact you to confirm financials and the bidding process. If you have questions regarding online bidding, contact Tami with DV Auction at (308) 870-3661 or tmacintosh@dvauction.com. If you need technical assistance, call (402) 474-5557 or support@dvauction.com. It is recommended that you **register by Friday, August 29, 2008** for online bidding. Every attempt will be made to complete your application even if it is on sale day.

How to read this catalog...

EPDs: Expected Progeny Differences help compare one animal to another within a breed. They are 7-9 times more accurate than any other measurement. We have printed calf projected EPDs for our bred heifers. This is still the best estimate we have until the calf is born and their official EPDs can be recorded.

BW, WW, YW: Birth, Weaning and Yearling Weight EPDs predict the difference in the average weight of an animal's calves compared to calves of other animals in the breed. The higher the EPD, the heavier his calves will weigh comparatively.

TM (Total Maternal): This EPD measures the total pounds of weaning weight expected in the bull's daughter's calves due to the animal's contribution of genetics for growth and milking ability. The higher the EPD, the heavier the calves are expected to be.

MILK: Maternal Milk EPD measures pounds of weaning weight expected in progeny of daughters due to genes for milking ability transmitted by the animal. The higher the EPD, the more milking ability the cow is expected to have. We strive to select cattle that are in the middle of the breed (20%-80%) to maintain more fleshing ability and improved reproductive efficiency. We believe this will improve your profits by increasing your pounds of calf weaned per cow exposed. In very lush environments, more milk is acceptable.

STAY: Stayability EPD measures the probability of daughters staying in your herd to at least the age of six years. Since cows are usually only culled for being open before the age of six, this EPD is primarily a measure of sustained fertility in female offspring.

Ratios: In herd comparisons between animals in a contemporary group (all the same sex, age and are treated the same). The average ratio is always 100, so a heifer that ratios 105, weighed 5% heavier than the average animal in that group. A ratio of 97 means she was 3% lighter than the group.

Carcass EPDs: The higher the EPD, the more marbling (MRBL) or ribeye area (REA) the bull will produce in his offspring. Carcass EPDs are becoming more important all the time.

Ultrasound Carcass EPDs: Ultrasound is the most effective way to measure the genetic merit of seedstock in the industry today.

Pasture exposed from 5/18-8/1 to BASIN NEW TREND 6346 (Reg. #1121966).

LA961 is one of the sure fire highlights of this sale, and possibly the whole sale season. We will have a hard time parting with this established donor. She is not only a direct daughter of the illustrious queen of the breed, but she is a top daughter of the legendary LCC Grand Canyon 1244G. The Grand Canyon daughters do everything right and really stamps his daughters. LA961 is certainly one of the thickest cows to ever walk our pastures. 102.0 MPPA.

Bred 4/23/08 to BECTON NEBULA N045 (#854775). Pasture exposed from 6/1-8/1 to Basin New Trend 4554 (#1121766).

As the Red Angus breed continues to develop and improve, cows like NA282 will have to be valued for what they represent. She represents the best of the best. If you want to talk about cow families, you won't find a better one. If you want to talk about carcass quality, she is in the top 1% for rib eye area and top 35% for IMF. Then, finally you can look at the cow—ALL I CAN SAY IS SHE'S THAT GOOD.

We purchased Eleanor NA282 from the Leachman dispersal. She was our pick over a very large set of heifers that day; she has lived up to our high expectations. Again, she is bred to the unique outcross sire from Becton's – Nebula N045 who sports a -7.4 birth weight.

LCHMN Eleanor J1274

One of the most complete cows in the offering, Eleanor J1274 is an outcross deluxe that combines a direct daughter of Eleanor 7905 with Black Angus pedigree that includes Prompter and the Princess cow family.

BUF CRK ROMEO L081 • SIRE OF LOT 9

This will mark an end of a successful partnership between Welsh Prairie Red Angus and Shamrock Nook. I have to give Jeff all the credit, because it was all his idea to partner in our attempt to bring J1266 back to Wisconsin. After that it was all up to Eleanor J1266. Now here we are 7 years later and she has produced a herd of her own- over 120 ET calves and counting. The big story here is not that J1266 produces embryos; a lot of donors can make that statement. But, she produces pregnancies at rate of over 70% percent. You can mate her crossed the board, pick the bull, they'll be more than good. We bred her to Lancer, Silver Bullet, Mr. Beef, Heaven Sake, Romeo, Romero, Marias, New Design 878, Norseman King, and I'm sure I left out some. My point is she is more than a good cow. This is a bold statement, "SHE IS THE BEST COW IN THE RED ANGUS BREED." There is only one Eleanor J1266. Dam MPPA 104.4.

Eleanor 7511 is a full sib to Eleanor 7507 and 7508, with the added kick of being mated to the father of Nebula P093. That is the N045 bull that carries a minus -7.4 birth weight EPD. You will love the final product.

LOT 15 – SRN ELEANOR 5401

These 2 young Eleanors' are right from the top of our donor prospect pen. If they were to stay at Shamrock Nook these girls would represent the future of our cow herd. They combine our great donor Eleanor J1266 with the outstanding Black Angus sire- New Design 878. He was the #1 Angus bull for breed registrations in 2004. 878 is a son of the foundation cow Bon View Gammer 85, a cow that was purchased by Whitestone Farm as the top selling cow in the 2004 Three Trees sale. She has three sons working in major AI organizations, along with well over \$350,000 in progeny sales to date.

The dam of these beauties is a direct daughter of the \$64,000 Leachman Eleanor 7805. J1266 is also a paternal sister to Cherokee Canyon. An outcross dam produced a record setting \$180,000 bull at 5L in 2007. Remember the cutting edge genetic here 0011 and 5401 represent.

Bred 4/16 to BIEBER MAKE MIMI 7249 (#663262). Pasture exposed from 4/20-8/1 to HXC HEMI 4400P (#993332).

You will search long and hard to find a better Marias daughter that Eleanor 3530. She is moderate, thick, deep, and full of maternal power. Her sire, Marias 578-was lead off bull in the '95 famous Nile sale, he went on to be named National Grand Champion before earning his breed leading growth, maternal, and carcass EPD's. Now long gone, Marias is still one of the most sought after genetics in the breed. It has sold upwards of \$500 per straw in recent years. Here is the finished product, and she is ready to go to work as a lead matron in any donor pen.

Sells with a bull calf born 5/19/08, tattoo 8138, 74lbs. (pending reg #). There are a lot of reasons why Cherokee Canyon is the most heavily used sire in the history of the Red Angus breed. His offspring are very consistent- they are good in a multitude of traits. Eleanor 6206 has the eye appeal Eleanor's are known for and combines two of Leachmans most coveted matrons- Eleanor and Prilark.

Pasture exposed from 5/18-8/1 to BASIN NEW TREND 6346 (#1121899).

You can never go wrong with a Tidy Bee female, especially the direct daughter of one of the best cows Bootjack Ranch ever raised (BJR Tidy Bee 107). A maternal brother was a top bull at ABS- JR 107. A maternal sister, BJR Tidy Bee 780 was the high selling heifer at the 1998 Bootjack dispersal. The sire of this beauty is none other than Brylor New Trend 22D. He is one of Canada's trait leading Angus Bull for milk and total maternal-and he's an outcross. Semen on this great sire is on longer available in the states, as he is deceased. 50 straws sold at the 2004 Louisville National Sale for \$300 per straw. Then in 2005 a son sold half interest for \$77,000 at the National Sale. This Sale marks the end of a successful partnership between Shamrock and our good friend Phil Case of Jinglebob Ranch.

Bred 4/18/08 to BECTON NEBULA N045 (#854775).
Pasture exposed from 5/1-8/1 to HXC HEMI 4400P
(#993332).

This phenomenal female is the shining example of what we have tried to accomplish over the last 20 years, as Red Angus breeders. Big EPD spread from birth to yearling, and a top notch carcass evaluation.

As a first calf heifer 3021 weaned a Make Mimi bull calf with a 114 contemporary ratio, and he went right on to record a 116 yearling ratio with a 104 IMF / 101 REA. LCOG High Noon A093R was his name selling for \$27,000 to a partnership of Craig Bieber and Butch Schuler. In our 2007 production sale an outstanding bred heifer, Hi Dee 6114 went to Tom Venable's fine herd down in Georgia, and a natural heifer calf (7119) went home to Ray Brickl. In total Hi Dee has recorded over \$50,000 worth of sales in her short life. This number will continue to grow with a large number of ET calves expected in the fall (Norseman King, Judge, Sterling, and more...). 3021 deserves the hugh compliment these fine herds have made about her value by purchasing her gene pool.

She comes from the high performance cow family as well. It all starts will our 8026 cow and carries through to 1005, but I don't think it will end with 3021. The future is big and bright for this donor and her progeny. If you're searching for the cow to build a program around, you have to find Hi Dee 3021. I know of no cow better!! 108.0 MPPA

Bred 4/7/08 to LCC GR. CANYON 1266G (#566481).
Pasture exposed from 4/15-8/1 to HXC HEMI 4400P
(#993332). Here you have a proven cow, wouldn't you like to make your own Hi Dee. They will be extra stout, good footed, and have unbeatable udders. The sire behind this lady is Holden Hi Roller 8106, the \$25,000 Midland Bull Test graduate. He stamped his females with longevity. One of the major mistakes I made as a producer was not using Hi Roller enough. As I look back and see his females' age you have to recognize his talent.

Bred 4/18/08 to BECTON NEBULA P093 (#978419). Pasture exposed from 5/1-5/18 to LCOC ROMERO A007T5 (#1179471) then from 5/18-8/1 SRN SCRIPT.

7109 is a double bred Marta. The dam, Goldi A13R5 is a maternal sister to one of the most coveted bulls the breed has known- Julian B571. I really don't know were in the world you could find a straw of his semen, and I'm sure the price would be steep. Here a chance to take home the female counterpart to a breed stalwart. Both mother and daughter are moderate framed and extra stout. I was asked if I had to start a herd who would take a chance with? I'd have answer, A13R5!! She's a Marias like you won't find anywhere.

The Gravity calves have really made a name for themselves throughout the breed, and are proving to be a top son of Cherokee Canyon. His offspring are very uniform, much like his sire. Bulls are masculine and powerful. Females are stylish and make great mothers. Thelmitly 5044 combines all these traits with an actual IMF of 5.79 and a high REA. Don't over look this donor prospect.

Here is a chance to put the power back into your herd. Penny 4079 is sired by Grand prix 102. He was a bull the made a name for himself on the tan bark, before venturing out into the pasture. He has since been exported to South America, so semen supply is limited. There really was never a question about this bull potential with us, as he hails from the same cow family that produced the 7166 cow that did great things for the Shamrock Nook farm.

The 94K cow needs little introduction if you have been following the breed for the past 10 years. Her dam is none other than Hanson 26B cow, a Sam's Prospector daughter with really unparallel production for growth. Over a 4 year period in the mid 90's, she produced a calf that went through the Nile Sale at or above the \$10,000 mark.

An exciting combination of power from the 94k cow, with the calving ease credentials of Tidy Bee. A bull was the leading Red Angus bull at the feed conversion test of Lee Leachman's in Colorado. The bull has since been syndicated. Remember it cost money to feed these cattle- so you better have the good ones.

Bred 4/18/08 to Becton Nebula P093 (#978419). Pasture exposed from 5/1-8/1 to HXC Hemi 4400P. L6724 became the #1 Marbling EPD cow in the breed in 2002 when she scanned an amazing 9.64 IMF for a 179% ratio at RA Brown Ranch. That IMF is the highest animal the Brown's have ever ultra-sounded compared to over 6,500 head to date. This is the kind of female that you can sure build a herd around. There is no Cherokee Canyon or Lancer in her pedigree, so L6724 has so many breeding options. Her potential is unlimited! This is the real thing, and she represents a chance to build your own legacy. Ms. Make My Day L6724 will put your herd on the top of the Red Angus breed.

Bred 4/8/08 to MLK CRK CAPSTONE 901(#641444).
Pasture exposed from 4/15-8/1 to HXC HEMI 4400P
(#993332).

When it comes to the breed's great cow families, none is more successful than the Mimi tribe. They have long been known for their female producing abilities. The dam of 2030 is our Mimi 4151 cow, which at 14 is still having calves. She is also the dam of Holden Hi Roller and Holden Hi- C, two bulls that both worked in AI studs.

M210 combines two of Leachman's most coveted cow families- Prilark and Prairie Q. Her dam is in fact a full sister to the dam of Robinhood and Heaven Sake. Another full sister sold through the Nile for \$25,000 to Hidden Creek Farms of New London, WI. If you check M210 pedigree a little closer you will see Eleanor, Prairie Q, and Prilark all influence within this females paper trail.

Bred 4/10/08 to BIEBER MAKE MIMI 7249 (#663262). Pasture exposed from 5/18-8/1 to BASIN NEW TREND 6346 (#1121899).

A direct daughter of Tommy Coley's 8092 cow, she sold ½ interest back in the fall of 2005. Raised at Perks Ranch 109R proved herself their; and Tommy called her the best bred heifer to be raised at Perks. She is sound, very stout, and would make a great donor cow because her disposition is outstanding. We have found a major factor in embryo production is that calm cattle make eggs/pregnancies.

No hold barred type of female- that is the best way to describe 215R. She has always been a farm favorite. Chateau females are very good, but Tommy Coley became a master cattle breeder when he combined Chateau with Advancer A709. The A709 bull originated from Ray Brickl's herd in Wisconsin and blew away the competition at the Wis-Platteville Bull Test.

Pasture exposed from 4/1-6/1 to BASIN STERLING 623 (#1097815), then from 6/2-8/1 to BASIN NEW TREND 4554 (#1121766).

This young donor was one of the spotlight bred heifer at the 2005 R.A Brown production sale. We held her over and flushed her for Brazilian export. ET calves have also been born in Iowa with good reports. Check out this pretty donor's number / ratio-top 1% of the breed for IMF and REA, an actual IMF of 6.87 for a 137 ratio.

Pasture exposed from 5/18-8/1 to BASIN NEW TREND 6346 (#1121899).

I had been looking to add a Marigold cow family to our herd for a number of years. I was able to purchase R416 in the fall from Buffalo Creek. She has yet to hit her stride here in Wisconsin after a couple of harsh summers in the dry Wyoming hills. But, we have had good luck with the BC cattle over the years, and I expect the same from R416. Sells with a heifer calf at side.

We have quite a story to tell you about the destiny 712 cow. It is much to long to tell you here, but to bring you up to speed quick here goes. We purchased Mike Farnsworth's whole herd just to get the 712 cow. She became a lead donor here, and we marketed a large group of her eggs to Mexico, Brazil, and China. Her average flush was 18+. We later sold her to Ner Farms (Black Angus outfit) to become their lead donor because of her unbelievable fertility. They flushed her with great results, and then we purchased her back for more export. 712's sire is the North of the border sensation Brylor New Trend 22D.

Pasture exposed from 4/15-8/1 to HXC HEMI 4400P (#993332).

Don't over look this Make Mimi daughter. Beautiful is the best word to describe her, but the best judge of any cow is her daughters. Her 2008 natural calf by Forever Grand will be outstanding, and in 2006 her Romeo L081 breed heifer was our best. She sells as lot 77.

6004 was one our original purchases from Ole Redland. She was the best bred heifer on an 800 female sale, and she has done little to disappoint us. A direct daughter of Rambo 502, she needed to be in a donor program.

This is one of the best young cows in the herd. She will be a hard girl to see go because she was always one of my favorite. Make Mimi females are the best, they have the great udders like all the Make My Day cattle. Don't look past her because she is so far down the sale- SHE COULD BE A DONOR AT ANY HERD!!!

Bred 4/16/08 to BIEBER ROMERO 9136 (#899669). Pasture exposed from 5/18-8/1 to BASIN NEW TREND 4554 (#1121766). 6051 was our pick of the Silver Bullet calves in a strong group of bred heifers in the fall of 2007. We know she would be a solid female just like her dam (4058) and her grand dam (6004). I can't say it enough, if you want to find a good female you better check out her cow family. It is hard to argue with the value of the Rachel's we have put together at Shamrock Nook.

Here is one of the neatest cows on the place. Not only does she have Rambler's built in longevity, but she is gorgeous!! If you never have had Rambler females, you really need to use the bull. I first saw my first daughters at the Bootjack dispersal. What I saw was 10 year old cows that looked like they were 5, great udders, and just great cows. You will be in for a treat on October 31.

Bred on 5/3/08 to BECTON NEBULA P093 (#978419). Pasture exposed from 5/18-8/1 to BASIN NEW TREND 6346 (#1121899).

Everyone is looking for the EXT outcross, and here she is. Great disposition, great overall package, and she's bred to Nebula P093. 513 is a young cow that might be a donor in the near future.

Bred 4/11/08 to BIEBER MAKE MIMI 7249 (#663262). Pasture exposed from 5/1-6/1 to BASIN STERLING 623 (#1097815), then from 6/2-8/1 to BASIN NEW TREND 4554 (#1121766). 111J is a straight Black Angus pedigree red carrier. SHE HAS HAD RED CALVES!! In fact, check out her natural baby doll that sells as 112A. If you're searching for outcross, you won't find a better pedigreed black with donor potential.

Pasture exposed from 5/18-8/1 to BASIN NEW TREND 6346 (#1121899). A unique blend of New Design 1407 with Precision 1680. The dam is a full sister flush mate to the \$75,000 Gar Precision 706 cow. The maternal grand dam is the renowned Gar EXT 2114 cow, which was the top selling cow at the Kahn Dispersal for \$120,000. Same genetic blend resulted in Gar Integrity. I really can't write enough to give this cow her justice.

Sale Terms and Conditions

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlines in the Red Angus Association of America Code of Ethical Sale Practices.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

PHONE BIDS: Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.

DVAuction Broadcasting
Real-time Auctions

We are pleased to offer the sale broadcast "live" over the Internet through DV Auction Services. You will need high speed Internet access (DSL, T-1, or broadband) to bid online. If you are a first time user, a day or more before the sale, you will need to register with DV Auction by visiting www.dvauction.com and clicking on the Register Tab. Complete the registration and select online bidding/buying. Your bank will be contacted to verify information. DV Auction will contact you to confirm financials and the bidding process. If you have questions regarding online bidding, contact Tami with DV Auction at (308) 870-3661 or tmacintosh@dvauction.com. If you need technical assistance, call (402) 474-5557 or support@dvauction.com.

It is recommended that you **register by Friday, August 29, 2008** for online bidding. Every attempt will be made to complete your application even if it is on sale day.

About DVAuction...

Founded in 2000, DVAuction, Inc. is an Internet broadcasting company specializing in live real-time auction and special event broadcasts.

DVAuction provides a unique online viewing experience. All of our auctions and events are broadcast live as they happen. Once you complete our easy and free registration process, you can see and hear what is happening at all of our auctions as it happens. If you'd like to bid on any of our auctions, just complete our quick and easy approval process, and once you are approved by the auction house to which you have applied, you can bid on any of their auctions just as if you were there at the auction.

We offer our customers products and services unmatched by our competitors. Our 8 year track record proves real-time live auction broadcasts are a successful viable marketing tool for anyone marketing products via a live auction.

DVAuction is a company with proven results. DVAuction.com receives an average of 140,000 visits from 25,000 unique visitors per month. Our database of 69,000+ registered viewers and 7,700+ approved online buyers grows daily. During the last 3 years, DVAuction has received over 137,000 Internet bids, resulting in the sale of over 24,000 lots to online Internet bidders.

DVAuction broadcasts weekly auctions from a growing network of over 30 individual livestock auction markets located nationwide. In addition, our company will broadcast more than 150 specialty auctions during the course of a year. Specialty auctions include purebred beef production sales, equine sales, show animal sales, boer goat sales and many other types of auctions. All auctions are broadcast with live video, live audio and live bidding capabilities.
