

Dear Red Angus Friends:

Sale day is a bittersweet day as we offer you something that we have worked so hard to build the last 17 years. Thriving to be the best has been our focus from the very beginning. The foundation females have been the key to this herd's success and we couldn't be happier with the production from these matrons.

Schuler Silver Bullet 4604P is a young herd sire that we spotlighted for this 2006 production offering. Remember his name because this bull is destined for big things in the Red Angus breed. This is one of the first chances to sample this young superstar.

I believe this catalog will speak for itself. The best of the breed's most noted cow families are represented. The Lot 1 cow, SRN Hi Dee 3021, is a powerful female with unlimited potential. Lot 2 and 2A represent the Tidy Bee family and the famed Bootjack label. Lot 3 and the remaining section pictures the Eleanor J1266 donor cow. She is a cow that I wouldn't trade for any other cow in the breed. In total, we believe this is our strongest and most uniform group of females to date. It has been gratifying to see our customers succeed with their purchases from our program's past sales. We are confident this will continue.

Building this Red Angus herd has been an important part of our lives over the past years here at Shamrock Nook. We have enjoyed the many great friendships that we have developed. Our hope is that these ladies will bring you some of the same things that they have give us – a great way of life, and a sense to real pride.

Please, feel free to contact Kyle or anyone at Shamrock if we can be of assistance. Once again, we look forward to seeing to seeing you sale day.

Sincerely,
Joe and Jim Dunphy
