COMMERCIAL BRED HEIFERS

Lot 54 - 50 Head of Stabilizer bred heifers - (Angus/Sim. and Angus/Gelb)

AI Bred to Nichols New Design 227 (Angus) (Due 3/15)
Pasture exposed to Nichols Angus Bulls- for a 60-day calving period.

These heifer represents a union between two progressive cattle programs; Leachman of Colorado, and Mark / Shawn Bula. The Bula's purchased these heifers to supply the growing demand for F1 and F2 females. They hope that this will be an annual sale event. I hope that you will receive these cattle as a part of the Shamrock Nook team. We believe in these people, and their cattle. These heifers are moderate, and packed with carcass potential.

The heifer will be ultra-sounded for calving date, and calf sex by Birnamwood Vet Clinic, and sold in gate cuts of 5 head per lot according to breeding date (example Lot 54A-5 head of heifers due 3/15 with bull calves). Complete vaccination program provided on these heifers. PLEASE CALL SHAWN BULA(608) 548-0290 for more details.
