BJR SRN TIDY BEE 1019 - LOT 2

Selling one half interest and no possession.

The buyer will be partners with Shamrock Nook – Please call for details

Bred 3/23/06 AI to Schuler Silver Bullet 4604P #962964. Pasture exposed natural to Schuler Silver Bullet 4604P #962964 (4/15/06 – 7/1/06). Information on due date available sale day.

You can never go wrong with a Tidy Bee female, especially the daughter of one of the best cows Bootjack Ranch ever raised (BJR Tidy Bee 107). A maternal brother is one of the top bulls at ABS-Jr 107. A maternal sister, BJR Tidy Bee 780 was the high selling bred heifer at the 1998 Bootjack dispersal, and now resides at Kerry Paul's in Albany, Mo. The Sire of this beauty is none other than Brylor New Trend 22. He is one of the #1 bull in Canada for milk and total maternal-and he's an outcross. Remember the Canadian's ratio blacks/reds together. Semen on this great producer is no longer available in the States, as he is deceased. 50 straws sold at the 2004 Spot Light Sale in Louisville for \$300 per straw. A son from Tommy Coley's herd sold for \$77,000 (1/2 interest) at the 2005 National Spotlight Sale.

This is part of Phil Case's set of donors here at Shamrock Nook. We are selling only a 50% share, but this Tidy Bee makes the right kind of cattle for today's cattle industry. Averages 6 eggs per flush over two flush seasons.

**TIDY BEE 780
MATERNAL SISTER TO LOT 2**

**BIEBER MAKE MIMI 7249
SIRE OF LOT 2A**

Sells AI bred 4/14 to Schuler Silver Bullet 4604P #962964
 Pasture exposed Bieber Romeo 10107 #1029616 (5/2 – 7/7)
 Vet checked to natural date (due 2/14)

Tidy Bees have long been a favorite of mine. I remember the first time that I saw Tidy Bee 107 the Bootjack dispersal. She was unbelievably deep bodied!! The best heifer that day was Tidy Bee 780-a daughter of 107. The dam of this ET wouldn't have to take a back seat to these other Tidy Bees. She is sired by Canadian legend Brylor New Trend 22, the outcross bull that is almost impossible to get here in the states. The sire, Bieber Make Mimi 7249 is doing big thing for Accel. Genetics. He is a balanced breeding bull that has produced nothing but marketable progeny. Here it is-great cow family, sound bull, and outcross genetics. Tidy Bee 5194 has donor potential.

Bred AI bred to 5L Direct Fire 1641-6443 # 920964 5/15/06
 Pasture exposed to Schuler Silver Bullet 4604P #962964 5/20/06 – 8/1/06
 Information on due date available sale day.

This young cow is right from the top of our donor pen. It was our plan to flush 0011 this past summer, but we had a larger than expected donor group. So she was delayed. She combines our great Eleanor J1266 with the outstanding Black Angus sire -New Design 878. This is a special attraction, and may very well raise the next Red Angus genetic bar. The dam of this future donor is a direct daughter of the \$64,000 Leachman Eleanor 7805. J1266 is a maternal sister to None Better and King Rob. She is also a paternal sister to Cherokee Canyon. This Eleanor carries a lineage of greatness.

The sire, New Design 878 was the #1 Angus bull for registration in 2004. He is the son of foundation BonView Gammer 85. A cow that was purchased by Whitestone Farm as the top selling cow during the 2004 Three Trees Sale. She has three sons working in major AI organizations, along with over \$350,000 in progeny sales. An outcross dam produced a record setting \$180,000 bull at 5L Ranch this past spring. But, realize these cows are not Eleanor J1266. There is only one J1266.

Eleanor 0011 is bred AI to the Future Direction (Black Angus) son -Direct Fire. The expected calf will be a 3/4 brother to the high selling outcross sire-5L Destination 893-6215.

SRN ELEANRO 6044 – LOT 4A

This promising mating comes right from the Red Angus royal family. The dam of these outstanding heifers is a direct daughter of Leachman Eleanor 7805 and blends with the elite sire-Buffalo Creed Chief 824-1628 "Canyon". Eleanor J1266 is the real deal. She is deep, ultra thick, and a true brood cow. She ranks in the top 1% of the breed for stability and heifer pregnancy. On top of that, she has a whopping MPPA of 105. A prolific donor, today J1266 has over 90 calves in production. A set of ET 6 ET bulls where the highlight of the Leachman of Colorado Bull Sale, averaging \$5,500. Another outcross ET bull sold to Bieber's Ranch in South Dakota for \$6,000. We have mated her numerous ways, but the one consistent is, J1266 makes them all the same-real good.

I'm a strong believer that every herd should have an Eleanor – at least one! Here is your chance. -4.2 BW EPD from an actual 58# birth weight, and a 734# weaning weight. Plus, 6050 is flat gorgeous. The dam is a product of our embryo transfer program. She combines past National champion, Badlands Mr. Beef 805 with our donor cow supreme Eleanor J1266. The sire is once again Silver Bullet 4604P. He blends a carcass trait leader in Lancer 442T and the power of LCC Gold Robber.

SCHULER SILVER BULLET 4604P
 SIRE OF LOTS 4-5

Silver Bullet 4604P is a fast moving star on the Red Angus seen. His sire, Bekcton Lancer F 442T is the undisputed king of carcass within the breed. He combines a.31 marbling score with a +.58 Ribeye area. This ranks him in the top 5% for IMF and the top 1% for REA. His daughters are also below average for maintenance energy. They have great udder structure and overall balance. At the 2005 Nile sale, a paternal sister to Silver Bullet by Lancer 442T sold for \$64,000.

This young sire has it all: If you are looking for low birth weight, he has that. If you need some growth, he has more than enough. If you want to improve your herds carcass qualities, he might be unmatched. There isn't a bull in use today that can match his EPD credentials.

Schuler Silver Bullet 4604P:
 -1.6 BW, 30 WW, 60 YW, 15 MILK, 30 TM, +9 STAY, +.28 Marb, +.53 REA
 ACTUAL: 93% BW RATIO; 107% WW RATIO; 14% YW RATIO;
 125% IMF RATIO; 121% REARATIO
 From a strong group of contemporaries at Schulers.

Owned in a partnership with Schulers, Leachman of Colorado, Bieber Ranch, and Shamrock Nook.

Copperqueen 6001 is the first Silver Bullet calf born here or anywhere. And, quite a calf 6001 is-740 # weaning weight off a first calf heifer. Not as surprising is the fact that the dam is a Grand Canyon daughter out of our Copperqueen 7166 donor. A daughter of 7166 at Coley's Ranch raised a \$77,000 bull –Coley's Mojito 503R. The maternal grand dam is none other than FRR Coppertop 591. Silver Bullet is a carcass son of Lancer 442T out of a strong Gold Robber bred dam. He was purchased in a partnership between Lee Leachman, Bieber Ranch, and Shamrock Nook. I would like to thank Lee and Craig Bieber for their faith in our program, allowing us to partner in this up and coming superstar sire. Interest in Silver Bullet has been outstanding.

Dam is an exciting embryo blend of our 94K donor, and the great Tidy Bee cow family. You will find Tidy Bee 107's influence throughout this offering. The sire, Silver Bullet 4604P is well on his way to becoming a breed leader after only one calf crop. All reports are encouraging, and we expect his birth weight to lower even further and his weaning weight to spike. Dare we say-we have a spread bull on our hands with unparallel carcass levels.
