Mimi 6090's dam is a maternal sister to a pair of AI sires: Holden Hi Roller at Semex, and Holden Hi-C at Genex. The grand dam is none other than Bieber Mimi 4151, an impressive cow that at the age of 13 is still producing the type of cattle Mimi's have long been known for. If you haven't realized, this cow family also gave us the popular Accel. Genetics bull, Beiber Make Mimi. Mimi's make great females with outstanding carcass traits.

The sire needs little fanfare. He is the reigning king of the Red Angus breed – Buffalo Creek Cherokee Canyon 4912. ABS label him "the bull that does everything right". His calves are moderate framed with unbeatable thickness. He ranks in the top 1% for ribeye area, and still has a breed leading marbling levels. Most of all, people want his sons and daughter. Take a strong look at this girl.

SRN COPPERTOP 6022 - Lot 9

You would expect low birth weight, and high carcass values from a Silver Bullet calf. But, Coppertop 6022 only brushes the surface of what we will see in the future from this young herd sire. The dam is a full sib to our senior herd sire, FRR Blaze 6129. He has been a real driving force at Shamrock Nook for the past 8 years.

Ms. Advance 6042 offers the intriguing blend of Silver Bullet and the Advance cattle line from Perks Ranch. The dam Miss Advance 109R was high selling bred heifer at the 2001 Perks production sale. Tommy Coley, past manager at Perks, called 109R the best heifer ever raised at the ranch. The maternal grand dam-Miss Rambo 8092 sold 1/2interest in 2005 for \$12,500. Check out 6042's weaning ratio of 107 from a strong set of heifers at Shamrock. Her +36-ribeye area EPD rank 6042 in the top 2% of the breed.

Penny 6003 is a cherry red extra deep-bodied heifer. Her sire is BC Romeo L081 who rocked the breed when he topped the 2002 Buffalo Creek bull sale for \$102,000. He is loaded with carcass and maternal traits –stacking ribeye trait leader, Julian B571, and milk leader, Canyon 1658. Now as a proven herd sire, we are finding Romeo daughters to be second to none. His sons are loaded with performance. In fact, we purchased a Romeo son from the Bieber Ranch this past spring.

We have a full sib to LCC sterling B055M, the sire of this set of heifers. After seeing the type of female she has become, we realized we had to use Sterling on our Cherokee Canyon females. Like his sire, Lancer 442T, he is a carcass outlier that ranks him in the top 15% for all measurable carcass traits. He is a rare 6 star tenderness sire, homonymous for Tender Gene SHP316 and 530, and Gene Star T1.

The dam is a real tank. She is a Cherokee Canyon daughter out of a Blaze 6129 female. This set of heifers might be a freak of nature (both weaning over 700#). Anyway Christmas comes early-October 21 to be exact.

Sells AI bred 4/14 to Bieber 9136 (#899669). Pasture exposed Bieber Romeo #1029616 (5/23 - 7/7). Vet checked to AI date (due 1/20)

This is a genetic gem that you will only find at Shamrock Nook. 5053's dam is a full sib to the dam of Ubar Grand Prix, one of the most popular bulls in the breed today. Both matrons trace back to the legendary Coppertop 591 cow from Ken Forster. 591 is a cow with progeny ratios of 125 for weaning, and 112 for yearling from six calves. That equates to an astronomical 120 MPPA. Another embryo daughter of 7166 raised a bull that sold one-half interest for \$77,000 at the National Spotlight Sale - from Tommy Coley.

Sells AI bred 4/14 to Bieber Romero 9136 (#899669). Pasture exposed Bieber Romeo #1029616 (5/23 - 7/7). Vet checked to AI date (due 1/20). This rare daughter of ABS's carcass sire-Full Value is absolutely gorgeous. She has been the standout heifer in the bred heifer pen since day one. We don't show here at Shamrock Nook, but if we did Dance 1503 would be hard to beat. She is moderate framed, deep ribbed, and extremely thick. The dam traces back to cow our good friend, Jeff Schneider purchased from XXX Red Angus at the Nile sale in Billings, MT.

Sells AI bred 4/14 to Bieber Romero 9136 #899669. Pasture exposed SRN Make Mimi R231 #1043409 (5/23 - 7/7). Vet checked to natural serves (due 3/18).

Mimi Bloxy 5059 is a 3/4 sister Feddes Big Sky R9 (\$41,000 bull at the Feddes 2005 Spring Sale). Make Mimi on top of a Grand Canyon Female seems to really click. Maternally, the same Bloxy cow family produced Leachman On Target 1016E at ABS. The dam, M908, might be the hardest working female at Shamrock, as noted by her 110 MPPA.

Sells AI bred 5/20 to BC Lancer F M328 #861704. Pasture exposed Bieber Romeo10107 #1029616 (5/25 - 7/7). Vet checked to Natural serve (due 3/20).

Mimi 5077 is the type of bred heifer that will help you get to where you need to go in the Red Angus breed. The dam is none other than Double Fork 061C, a cow that has left her mark on this breed, and is still producing at 14 years old. Daughter is in production here at Shamrock, at Steve Bowden, Jinglebob, Ubar, Paul Angus, Brandee Cattle, Link Ranch, and Hidden Creek. Sons have sold to Accel. Genetics, and Genex. The sire is one of the modern day greats-Bieber Make Mimi 7249. Expect light birth; extremely sound cattle with great carcass values. 5077 fits the bill with a moderate frame and a 6.09 IMF. She will make you money.

**SRN MIMI 061C - Lot 17**
